Uttarakhand, India

---

## OBJECTIVE

I want to work in the tech field where I can use my skills, learn new things, and help create useful software and websites.

---

## PROFESSIONAL SUMMARY

Motivated and enthusiastic BCA student at Graphic Era Hill University, Bhimtal campus, with a keen interest in frontend development and artificial intelligence. Eager to apply technical skills to real-world projects and gain hands-on experience in the IT industry.

---

| Percentage: 88.67                       |                                |

---

## PROJECTS

### • Multi-Threaded Bank Transaction System:

This project simulates a bank transaction system using multithreading. It enables concurrent handling of deposits, withdrawals and balance enquiry.

### • Indian Railway Website:

Created a functional frontend Indian railway website project which aims to provide user friendly online platform for booking tickets.

---
